

GOFF Concepts

Outlook Profiler

Product Spotlight

Famous for making intuitive software, GOFF Concepts brings to the Exchange administrator's toolkit a software package that removes the worry over Outlook profiles.

Issue

Users are largely untechnical and when it comes to the myriad of options in Outlook, they need support. But support isn't free and Outlook is a very complex application. How do we make it so that the support issues for new Outlook profiles go away? Welcome to your new friend, **Outlook Profiler**, more than just an Outlook profile generator!

Let Outlook Profiler show you how to create Outlook profiles the easy way!

Automatic Outlook profile creation!

Benefits

Special benefits of using Outlook Profiler in your environment:

- * 600% faster than manual setup (phone support example).
- * No more manual Outlook Exchange profile creation.
- * Free your technicians to do other important tasks.
- * Create Outlook Exchange profiles automatically.

Features

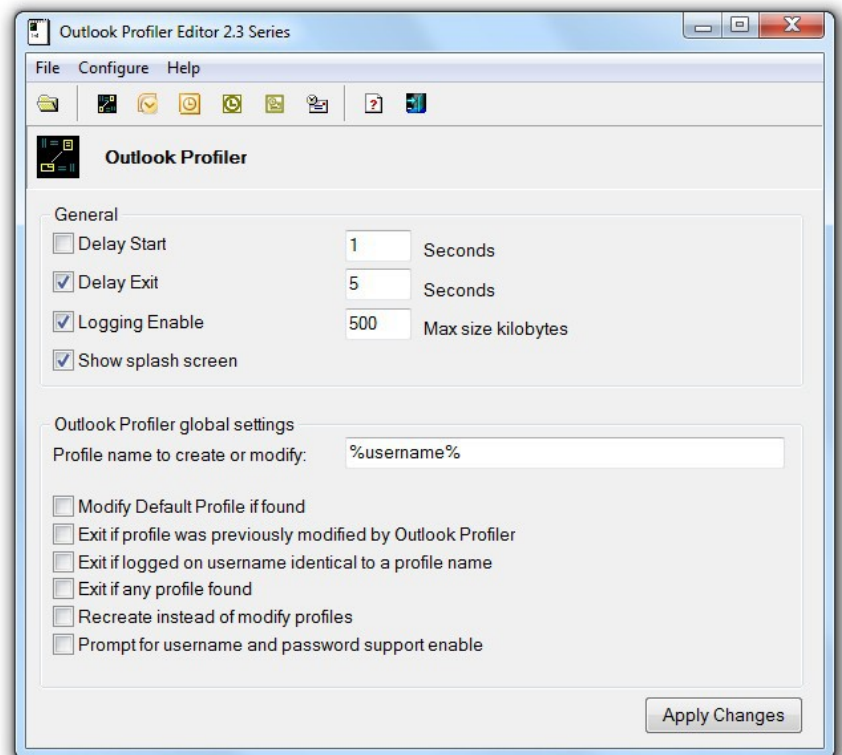

- * Outlook 97 through 2010 supported.
- * All major Microsoft Platforms (2000,XP,2003,2008,Vista,Win7).
- * POP3, IMAP, and HTTP Internet email accounts.
